

Bases Series 8000

DB 8000

Standard Base DB 8000

A common base, applicable for the standard fire alarm installations.

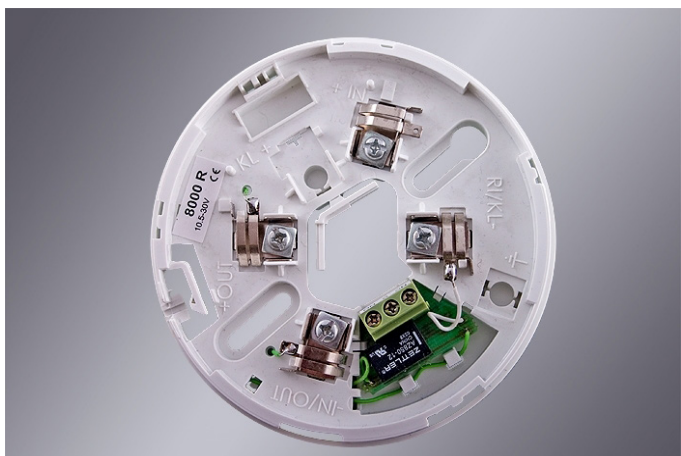

DB 8000L

Base with resistor DB 8000L

Current treshold base for the UniPOS 8000 series compatibility with 3rd party equipment.

DB 8000R

Base with relay output DB 8000R

Trigger base with built-in relay output, applicable for burglar fire alarm systems etc.

DB 8000D

Base with schottky diode DB 8000D

Further improvement of the operation reliability through the built-in diode for removed fire detector application.

DB 8000DR

Base with schottky diode & resistor DB 8000DR

Combined current threshold base and build-in diode base for reliability improvement and compatibility.
